

THE AMERICAN LEGION DEPARTMENT OF NEW YORK

2019 LEGISLATIVE AGENDA

Gary Schacher, Department Commander

Frank LaMarsh, Legislative Chair

Dorothy Button, Vice Legislative Chair

William T. Mahan, Consultant

STATUS AS Of 03/08/19

100 years ago, veterans of the “war to end all wars” recognized that soldiers and sailors returning home from the battlefields would need help to successfully transition from warrior to civilian life.

Thus, The American Legion was born as an organization of war-time veterans committed to identifying, supporting and implementing programs aiding former members of the Armed Forces and their families, as well perpetuating Americanism and the ideas of freedom and democracy.

As we near the centennial of the founding of The American Legion, our New York Legion Family of more than 200,000 members continue to support our veterans’ community through its network of local posts, neighbor-to-neighbor help and an elite professional counseling service.

At the 100th annual convention in Rochester, July 18-21, 2018, The American Legion, Department of New York, reaffirmed the organization’s principles and a commitment to its leadership in providing advocacy and demonstrated its diligence and talent in developing meaningful and timely proposals to present to elected state representatives for consideration as potential legislation and when necessary the National organization for Congressional consideration.

This year’s agenda includes new proposals - and a few previously offered through resolutions that legionnaires believe will provide vital help to returning service members and improve the quality of life for our veterans and their families.

During the coming year, our Department of New York will champion these resolutions and proposals - respectfully and affirmatively seeking support from our state legislators - reminding them of why, and for whom, we want specific legislation enacted.

Many of our returning veterans come home physically and emotionally scarred by the horrors of war. Issues confronting these veterans often are immediate, and literally a matter of life or death. Too many of today's returning warriors are battling homelessness, suicide and need for employment.

In addition, as the number of woman veterans continues to grow additional focus and emphasis must be placed on the care and treatment of our woman veterans. In looking towards the future we can't forget the children of our returning veterans and the impact multiple deployments of one or more parents has on them or the needs of the veteran caregiver.

The Department of New York American Legion recognizes these concerns and calls upon our New York State Legislature and Governor to join us in reaching out and helping our veterans' community by enacting legislation or policies designed to meet those needs.

Priority Legislation:

The devastating impact of PTSD and TBI demands a dedicated and comprehensive study to delineate viable treatments such as animal therapy, hyperbaric oxygen treatment (HBOT) and various other courses of action including medical marijuana, that have demonstrated beneficial results. Another alternative the RTM protocol; The Reconsolidation of Traumatic Memories has a proven track record and the American Legion Department of New York strongly urges the State Legislature to approve and fund this work. In addition, we ask that state agencies be directed to undertake such studies as necessary and make public the results.

Resolution #10, 2014: Suicide is an epidemic among our veterans, still averaging more than 20 per day nationwide. The American Legion encourages Congress and the President to sign into law acts similar to the Suicide Prevention for American Veterans Act that will expand and improve care provided for veterans and service members with mental health issues who are at risk for suicide. We also urge the New York State Legislature and state agencies to provide greater awareness and to keep funding programs and groups that reach out to men and women in uniform, veterans and their families through family care programs, suicide prevention programs, job fairs, and public service announcements, bringing about awareness of PTS and suicide prevention.

Resolution #25, 2016: Requests the Governor and New York State Legislature to pursue, identify and recommend viable, alternative treatments to assist war-time veterans in assuming their rightful role as leaders and contributing citizens of The Empire State. The American Legion

acknowledges that medical and mental health care are primarily the responsibility of the Department of Veterans Affairs but encourages New York State to muster support for any and all viable treatment that offers help for our military service men and women to deal with the trauma of war.

The, American Legion Department of New York also calls upon our State Legislature to provide to Congress a Memorial Resolution urging establishment and implementation of alternative treatments for PTS and TBI and to ensure that the Department of Veterans Affairs (VA) and Department of Defense (DoD) provides such treatment to afflicted veterans and military personnel. In doing so, New York State would demonstrate support of The American Legion's national effort to provide veterans and service members in need of treatment for brain injuries and mental stress the best care and research in alternative treatment and other forms of therapy.

We further ask New York State and its agencies to review any means of extending state recognized alternative health care programs to disabled veterans unable to receive such care through their VA health care providers.

USS Turner Resolution: During the 2019 Mid-Winter conference the Department Executive Committee approved a resolution submitted by the Legislative Committee requesting action be taken to identify the remains of crewmen killed aboard the USS Turner that exploded and sank on January 3rd, 1944 outside New York harbor killing 136 crewmen. The remains of some crewmembers may be interred in 4 graves in Long Island National Cemetery in Farmingdale marked Unknown U.S. Sailor with the date January 3, 1944.

The resolution reads in part; Resolved, that the members of the American Legion Department of New York assembled, formally request the New York State Legislative Body to respectfully memorialized in resolution that the New York State Congressional delegation pass legislation requesting the Department of Defense, the Secretary of the Army and the Secretary of the Navy to direct the POW/MIA Accounting Agency to perform any and all actions necessary to exhume and identify the remains in the four graves in question located in Farmingdale's Long Island National Cemetery and determine if the remains are those of sailors from the USS Turner who gave their lives to our Nation on January 3rd 1944 and be it further;

Resolved, that upon being identified, the remains of these servicemen be given the respect and burial they deserved and that their families be given the opportunity to grieve and lay their loved ones to rest and be it finally;

Resolved, that this resolution be forwarded to the American Legion National Organization for action and its support.

Resolution # 18, 2018: The American Legion urges the New York State Legislature to formally recognize the date June 8 as U.S.S. Liberty Day now and forever and, dedicate a Memorial in Albany, NY befitting the courage and dedication of the U.S.S. Liberty's Crew, and the 5 New York sailors who lost their lives.

Resolution# 19, 2018: Calls for a change to New York State Executive Law Section 357 that “with the approval of the Board of Supervisors of a county, The Chairman of the Board of Supervisors shall appoint a Director of the County Veterans Service Agency for such County, for a term of 5 (Five) years”. This change will enhance the ability of the County Veterans Service Agency by improving continuity, knowledge of veterans’ benefits law, training and accreditation by the Department of Veterans Affairs when filing claims.

Resolution #20, 2018: Calls for amending New York State Executive Law, Section 365 paragraph 2 (b) to remove the words “prior to the Commencement” and to read as follows “At the commencement...that the veteran’s remembrance and cemetery maintenance and operation fund created pursuant to section ninety – seven – mmmm of the State finance law, contain monies sufficient... for a period of fifteen years”. Thus, eliminating the funding bottleneck caused by requiring funding prior to the commencement of the study to establish and construct the cemetery.

Resolution #22, 2018: Resolution #22, 2018: Due to the increasing overall claims activity experienced by the County Veterans Service Agencies Resolution 22 “Urges and requests that the New York State Legislature amend New York Executive Law Section 359 (1) increasing the share of the County (City) Veterans Services Agencies operation and maintenance to \$20,000”. This will increase the funding from \$10,000.

Resolution #30, 2016: Calls for coordination of an open flow of information across state agencies, regulatory authorities and education institutions that would remove barriers and accelerate pathways to civilian occupations for former military personnel, ensuring recognition and acceptance of military licenses and credentials achieved in service.

Many veterans, looking to establish careers and families in New York State after leaving the military, find they must go through a lengthy and often costly formal state administrative process to secure licenses and certificates for professions and skills they performed admirably while on active duty.

Transferring valuable and unique career experiences, such as emergency medical technician/paramedic, licensed practical and registered nursing, physical therapy assistant, bus and truck driver and police patrol officer (are just a few) should not have barriers delaying or preventing veterans from moving licensure for a compatible civilian work position. In late 2011, New York State implemented its “Experience Counts” program to help veterans with valuable military experiences to transition to the civilian workforce.

While laudable, this campaign has failed to reach great numbers of returning veterans, who unfortunately are not aware of the existence of this state benefit. Our state and its agencies should enhance its public awareness efforts to ensure the veterans’ community is fully aware of this program and how to take advantage of its benefits. One of the American Legion Department of New York’s priorities is to enhance public awareness of this program, and how to take advantage of it.

BOYS STATE: American Legion Boys' State is a unique program that teaches high school juniors leadership, citizenship training, and individual responsibility, while offering a perspective of the practical operation of government. In the past several years, New York State has authorized a \$150,000 grant to a college; presently SUNY Morrisville to offset overall costs of the program in which 1,000 boys annually participate. Continuation of the grant is urged to ensure financial wellbeing of the program, while maintaining an important educational opportunity for our state's young men.

TRANSPARENCY OF ASBESTOS CLAIMS: Calls upon the State Legislature to amend the Civil Practice Laws and Rules in relation to asbestos trust claims. Such action would require public disclosure by trusts regarding receipt and disposition of claims for injuries based on exposure to asbestos without violating certain private information of veterans. Countless military personnel, especially sailors were exposed to asbestos in the performance of their duties while on active duty. See Resolution # 24 of the National Executive Committee dated May 4-5, 2016.

PERFORMANCE OF A STUDY REGARDING HOMELESS VETERANS IN THE STATE OF NEW YORK:

Requests the state legislature to reintroduce proposed legislation that require a study to be conducted by the New York State Division of Veterans Affairs, the Office of Temporary Disability Service, Department of Labor and the Office of Children and Family Services to determine the number of homeless persons in New York State who are veterans. The study must also determine the number of children of the veterans and current placement, and whether such veterans suffered military sexual trauma. Further, it is asked that the results of any such study be made public along with recommendations on how best to address the issue of homelessness within the veterans' community.

A1646 Rozic – 02/14/2019 - referred to Veterans' Committee

RELATES TO NOMINATIONS TO BOARD OF VISITORS FOR STATE VETERANS' HOMES

Independent non-governmental oversight is instrumental in ensuring the care and housing provided to the veterans served by the New York State veterans' homes. As such the board of visitors plays a vital role acting as liaisons, "ambassadors" and is a key participant in monitoring the administration of the homes. The board of visitors provides more than just oversight of the facilities; they are an integral part of the social fabric and resident community by providing financing of offsite activities etc. through contributions from veteran organizations such as the American Legion. By signing into law the update to the public health law that provides for the appointment of interim members by the current board in the event that a vacancy is not filled within 270 days, continuity on the board will continue and the possibility that this vital function cannot continue due to the inability to form a quorum will be eliminated. Assembly Bill A8703 and Senate Bill S6144 which are an Act to amend the public health law in relation to filling

vacancies on the Board of Visitors for state Veterans homes, through interim appointments, if such vacancy has not been filled within 270 days was vetoed by the Governor on 04/06/18.
